

Control your softener from anywhere in the house.

Minimize trips to the basement or garage with our remote display. It warns of any problems and gives you push-button control over functions—like activating the electronic bypass valve to water your lawn.

Adjust the feel of your water.

Culligan's Dial-a-Softness® control lets you choose the way you want your water to feel.

Backed by the most trusted name in water.

At Culligan, we've been committed to providing superior water treatment products for over 75 years. Our units offer state-of-the-art electronic controls, innovative valve design, and are tested to the highest standard. Just as important, they're supported by your Culligan Man®, a local water expert. Your Culligan® dealer makes your decision easy as we can provide salt delivery, filter and media changes, rentals and financing options.

Culligan® HE Softener

The smartest way to fix hard water problems.

Culligan

better water. pure and simple.®

Be smart. Choose the softener that uses up to 46%* less water, salt and energy.

For high-efficiency water softening, nothing can match the intelligent design of the Culligan® HE. With patented technologies to optimize salt, water and electricity consumption by up to 46%*, it can save you money. Even better, it can improve your daily life. Enjoy fresher laundry and spotless glasses. Do less cleaning and scrubbing. Increase water heater efficiency. And more.

Introducing the world's smartest water softener.

Just how smart is the Culligan® HE? Smart enough to alert you to low salt levels and other issues. Sophisticated enough to be controlled remotely. And intelligent enough to let you customize your water's softness. Here are just a few of the ways it can make your life better:

Always know how long your salt will last.

Culligan® HE will tell you exactly how many days remain until you run out of salt, and when you need to refill.

Smart technology means you get "set it and forget it" convenience.

Our Aqua-Sensor® technology automatically adjusts to changes in water conditions—no need to reset the system throughout the year. With an optional modem, Culligan® HE will even alert your Culligan® dealer if salt is needed or your softener needs service so the dealer can arrange a service call before you even know there is an issue!

Benefits to You	Culligan High Efficiency Water Softener	Competitive Water Softeners
Reduces operating costs up to 46%*	YES	NO

Real time status updates	YES	NO
Interactive remote control	YES	NO
Controls the feel of your water	YES	NO
Automatically adjusts to changing water conditions	YES	NO

* 46% less versus a time clock regeneration softener.

Product Specifications

Patented smart technology:

- Culligan's proportional brining allows your softener to only regenerate that part of the resin bed that has been exhausted, which reduces salt usage.
- Automatic bypass valve provides the convenience of bypassing the water softener from the softener itself or the remote display.
- Patented Culligan® Aqua-Sensor® technology automatically adjusts to changes in water conditions so the softener only regenerates when needed, saving you salt, water and money.
- Our smart brine tank automatically monitors salt levels and tells you how many days of salt are remaining.
- Exclusive Culligan® Soft-Minder® meter monitors daily water use and provides advanced system diagnostics.
- The easy-to-read back-lit display with digital clock lets you know your softener is working and warns of system malfunctions.
- Culligan's Dial-a-Softness® control lets you choose the way you want your water to feel.
- Optional remote display makes it possible to control and monitor the softener from virtually anywhere in the home†.
- Optional modem can alert Culligan dealership if salt is needed or softener needs service.

Exclusive reliable design:

- Exclusive, non-corrosive valve using motorized pistons that provide more reliability than rotary valve systems.
- High-impact Quadra-Hull® Tank stands up to outdoor use with a four-layer design that resists UV rays, rust and corrosion. Limited lifetime warranty.
- Long-lasting brine tank with corrosion-proof components and Dubl-Safe brine refill control assure proper operation.

Cullex® resin media: Assures stability and long life. High-grade quartz underbedding evenly distributes water to maximize flow rates.

†Requires 120 VAC
